

Cambridge Kung Fu

Risk Assessment

Subject of Risk Assessment: Cambridge Kung Fu camp taught at Stella Peskett Millennium Hall, Southwold	Risk Assessment Conducted By: Laura Sargent	Date Last Updated: 04/08/2020
--	---	---

General Information About the Activity:
 This Risk Assessment is specific to the Coronavirus COVID-19 pandemic and will identify the risks associated with COVID-19 transmission in our club. This Risk Assessment will list Control Measures that we have put in place to protect our Staff and Students and it will be reviewed regularly as Government advice and guidance emerges and develops. COVID-19 is a new illness that can affect your lungs and airways. It is caused by a virus called Coronavirus. Symptoms can be mild, moderate, severe or fatal. The virus is spread in minute water droplets that are expelled from the body through sneezing, coughing, talking and breathing. The virus can be transferred to the hands and, from there, to surfaces. It can survive on surfaces for a period after transfer (depending on such things as the surface type, its moisture content and temperature). This Risk Assessment should be used in addition to, and conjunction with, Cambridge Kung Fu's Kids, Youth and Adult Risk Assessments.

Information About the Venues: Stella Peskett Millennium Hall, Southwold

Hazard?	Who Might be Harmed?	Risk Level?	Control Measures?	Actioned By?	When?	Revised Risk Level?
Venue not COVID secure	Staff, Students, Parents/Guardians, Visitors, Contractors	High	<ul style="list-style-type: none"> - Venue Risk Assessment conducted by Stella Peskett Hall - Collaboration between Stella Peskett Hall and Cambridge Kung Fu on implementing control measures outlined in both their, and our, Risk Assessment.
